suggestions for improvement.
The forum on the website was a nice tool for help on homework.
THE COURSE CONTENT WAS SET UP IN A VERY USER FRIENDLY WAY. IT WAS SLOW ON THE TOUGH TOPICS AND FAST ON THE SIMPLER ONES.
The book was way too expensive. The earlier editions work just fine. The course website was very helpful.
Examples in class were especially helpful.
Very Effective Class.
The instructor was really good about getting homework solutions posted for our review, test solutions and practice exams. It was really helpful especially since the solutions in the book were just answers, so not as helpful.

THIS INSTRUCTOR WAS ONE OF THE BEST I HAVE HAD AT THE UNIVERSITY OF UTAH. HE WAS ORGANIZED, AVAILABLE, AND KNEW WHAT HE WAS TALKING ABOUT. HE MADE IT OBVIOUS THAT HE CARED ABOUT THE STUDENTS LEARNING THE CONTENT.
The online practice exams were a huge help
He was very committed to making sure students understood material, and made the class enjoyable.
Always upbeat, energetic and helpful. Rob has such a pleasant manner with students he could make any course fun and rewarding! Also he is great with answering questions and never makes you feel awful when you mess things up. Not to say the exams or coursework are easy, but this is a very talented instructor.
Best instructor I've had at the U!
One of the best professors in my college career.
Rob did a fantastic job at presenting the course material. I think that students who want to take Math 3210 would not need Math 2200 if he were teaching Math 3210. He is very available for consultation and helpful with answering questions. One of the most fun (and humorous) classes I've taken.
He was great. Made the class entertaining and really made sure we understood the concepts being presented. I would recommend him to anyone.
One of the best math teachers I have ever had. He has a great knowledge of math and teaching. very open and available for questions in and out of the classroom.
One of the best professors I've had at the U. Organized, approachable, knowledgeable and a genuinely nice guy.
Very Good Teacher. I enjoyed his class.
When a question comes up that isn't related to this course but will be seen later on please don't dismiss it as unimportant. Just answer the question, if you have time, and say like you did sometimes that we won't need to know that for this class.
